Hello, I own a camp in The Cypress. To a certain degree, I do understand the reasoning behind the designated trails. However, we have used trails from our camp to our neighbor's camps for many years. With the new trail designation our 1/2 mile trip to our closet neighbors has turned into a 2.5 mile trip. I feel that this is very un-traditional. I am not looking for any special treatment as a camp owner, but I would like to visit my neighbors the easiest way possible. Just for the record, other then traveling to and from my camp, the only traveling I do is visiting my neighbors. I THINK THAT THIS SUBJECT NEEDS TO BE DISCUSSED. Thank you, Kyle J. Harween
